DETAILED ACTION

Claim Rejections - 35 U.S.C. § 112

1. Claims 21-24, 26-27, 29-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 21 is unclear regarding to whether the inlet, drain and outlet are part of the membrane cylindrical containers. The term “whose open ends located at the bottom” is unclear as to what bottom it is referred to., or as to whether the bottom of a basin, as claimed in claim 38, is intended. Claim 29 is unclear as to the collector of water should refer to a filtrate water collector. Claim 34 is unclear as to whether the produced water refers to the filtered water. Claim 37 is unclear as to the apparatus or installation structure, claim 21 recited the membrane immersed in a filtration volume, and claim 37 recites the membrane disposed at the bottom of a dry compartment, the structure is unclear.
- 2.Claim 33 remain objected as in paper no.12.

Claim Rejections - 35 U.S.C. § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person

Art Unit: 1723

having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 21-24, 26-32, and 34-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cote et al in view of Simuzu et al and Norton..

This rejection is discussed in paper no. 12, and is maintained.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CAR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CAR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Response to Arguments

6. Applicant's arguments filed 5/09/03 have been fully considered but they are not persuasive. The Examiner recognize substantial differences between the prior art and the present invention as

Art Unit: 1723

argued by Applicant, however the claims are not clear to substantially distinguish from the prior art, as indicted in the 112 rejection above. A more detailed consideration of the claims will be provided when the claims are amended to indicate a more clear structure.
